Reports Indicate Pumpkin Show Really Big Success

Circleville Pumpkin Show officials indicated Wednesday that preliminary reports showed the big street fair to have been a whopping success.

The crowd total appeared to be the only angle in which there was disappointment. Chilly weather the first two days and dismal, rain-sodden skies the fourth cut into at-

tendance. The hoped-for grand better roundup of pumpkins mand for that strange elixir, total of 200,000 was not reached. However, last year's total of 150,000 "wasn't missed too far," officials declared.

ter than had been anticipated. Officials of Circleville Booster Club reported their "still" nearly collapsed under the de-

Pumpkinjack. An estimated 6,000 servings of the squeezins' were sold.

Across the street at the Kiwanis Club booth, officials reported sales "off but satisfactory" on Pumpkin Soup. A total of 800 servings were made of this byproduct of the pumpkin. At the same time,

the booth handed out 5,600 cups of free coffee.

Kiwanians, who also handled Wooden Nickel sales, reported they unloaded 6,000 of the jitneys, already have arranged for the 1949 supply.

Meanwhile, Pumpkin Show bigwigs not only were pulling in the loose ends of this year's extravaganza but were making plans for the 1949 renewal of the street fair.

They said the Booster Club would get first refusal on sale of Pumpkinjack and that Kiwanians would again be given

the opportunity to sell Pumpkin Soup and Wooden Nickels.

At the same time, they were smoothing out details for the 1949 production of Pumpkin Fritters, an importation from South American kitchens.

But behind all of election day's buffoonery will be the hard working, unsung heroes at the precinct polls-the presiding judges and clerks.

American people will elect a Republican House of Representatives to the 81st Congress next Tuesday.

With Gov. Thomas E. Dewey an overwhelming favorite to win the presidency, an International News Service poll shows he will have his own party in solid control of the House.

What To Do For That Sluggish, Down-and-Out

Remember the time when you could eat like a horse, bubbled-over with energy, felt happy as a lark? Was it not because you liked to eat—didn't know what indigestion was, felt strong as an ox? As age advances the "old stomach and the ever-changing blood" need help. Now you may again release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection amd disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloat and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store, SSS Tonic helps Build Sturdy Health.

natural, surrealistic air. The guy driving the car got out one door and his wife got out the other and they came back and stood over the little yellow dog. The wife began to whimper a little and maybe the guy felt the same way, but he got, as they say, a grip on himself. "Oh, for God's

sake," he muttered, "it's just a dog. A dead dog. The dog is dead and nothing can be done. He picked it up by its four legs and dragged it over to the side-

walk; then he took the woman by the arm and deposited her back in the big car and he drove away.

It was then that the whole thing became macabre, because the little dog suddenly began to shiver and shake and make faraway moaning sounds, lying on the sidewalk. You know the way a snake wriggles endlessly after you have beat him to death or cut off his head? The dog would be still and quiet for a moment, then he would make that unearthly little bark.

I STOOD THERE, ALONE IN THE STREET with a jumble of parked cars and the wind coming softly up the road, and wondered what in the name of Heaven I could do, but I knew there was nothing, for the dog was 99 per cent dead.

However, I couldn't move; I just stood there, fixed and set, with the newspaper under my arm. It wasn't like seeing a man killed, somehow; this was a dog and it lay there with no one giving a damn, no one crying hysterically over it the way humans do. Then a fourth-floor window opened suddenly, and a man and

woman stuck their heads out and looked down, and the woman began crying loudly. I felt a little better at that, for it took the miserable loneliness away from the murder. Then the window closed and after a few minutes the man and

woman came out from the apartment building and headed for the dog. "He's dead," the man kept trying to tell her, the way the man in the auto had, "and nothing can be done."

They stood over the little yellow dog, and as they stood, his convulsions stopped and he became, in the words of Saroyan, dreamless, unalive, perfect.

While they were standing there, the woman still crying softly, the rain began to fall, big, splashy drops that presaged an autumn cloudburst, and I finally untracked my feet and headed away from there, leaving the little yellow dog in the rain.

Department of Agriculture. These fats are badly needed, and as the price has gone up considerably, the turned-in fats are a real help to your budget. Even one tablespoon or two of fat will help, so save the pieces of fat from your dinner, try it out, strain, and add to the container.

For safety's sake, don't dump ashes in wooden or paper boxes. Ashes often smoulder for hours after being removed from a stove or furnace, and can easily ignite a flammable container. The only safe way to handle ashes is to put them in a covered, galvanized steel ash can.

Some heavy wool skirts don't need binding on the hems. Ma-

chine stitch close to the cut edges of the material, then turn up the hem and fasten it with a loose, catch stitching. If the fabric isn't likely to fray, the machine stitching can be omitted.

Ask the woman who owns one

to the last word. So Packard has built it for her!

She might not care whether what's under the bonnet is a "free-breathing" straight eight, or a turbo jet.

But when she praises delightful responsiveness, and the soothing smoothness of Packard power . . . we like it! (What man ever put so dainty a shoe against an accelerator pedal and got such results?)

She might not care whether Packard's superior roadability and handling ease are achieved by advanced engineering, or by happy little gremlins.

But when she tells us that her

Packard has the restful riding ease of a

limousine, and the finger-tip handling of a tiny tot's stroller ... we beam!

And when it comes to styling, and tailoring, and convenience features, she's always been the No. 1 authority -and New York's Fashion Academy confirms her good judgment, in preferring Packard.

Come in-learn all the reasons why the most enthusiastic "man who owns one" is often a woman!
